

## AlsoEnergy Residential Solution

Best-in-class technology combined with the industry's most experienced residential scale expertise

### Comprehensive

- Fleet performance diagnostics
- Customizable data export, reporting
- Third-party data aggregation

### Reliable

- Hardware-agnostic data acquisition
- Billions of data points
- 100,000+ systems worldwide and growing

### A single, shared version of the truth

- One solution for all assets
- Flexible portfolio grouping by fund / region
- Advanced analytics to drive performance

### Turn insight into action

Uncover patterns and trends across a diverse portfolio of assets using different types of hardware and resources

#### Balance cost and performance

- Proven technology and service for residential systems
- Cost-effective reporting
- Improved risk management

#### One solution for all assets

- Bring together residential, C&I, utility assets
- Support projects around the world
- Create a single source of truth

#### Highly scalable

- Manage multiple portfolios
- Deploy flexible architecture
- Add functionality as needed

### Improve performance throughout the organization

Set aside the spreadsheets and take a comprehensive view of all project and portfolio data

#### High data quality

- High-speed sampling
- Flexible data acquisition
- Optimized data transfer technology

#### Automated process

- Streamline monitoring and control
- Manage by exception
- Quickly address root-cause issues

#### Customization

- Flexible software
- Industry experience and expertise
- Tailored solutions for your needs and goals

### Shift from reactive to proactive maintenance

Minimize downtime and maximize productivity by leveraging the full range of plug-and-play hardware and cloud services

#### Comprehensive solutions

- Plug-and-play hardware installations
- Cloud solutions
- One type of data across multiple stakeholders

#### Innovative approach

- Field knowledge
- Technology expertise
- End-to-end solutions

#### Specialized customer support

- Robust training
- Active fleet management on demand
- Customize for your needs and goals

## Solution Components

### Software

- LocusNOC
- Virtual irradiance
- Reports
- Analytics
- End user displays
- CMMS Solutions
- Asset Management Solutions
- Portfolio Aggregation Solutions

### Hardware

- LGate CatM1 revenue-grade meter

### Professional Services

- Expert support
- Active monitoring
- Fleet clarity report
- Meter-swap programs
- Data aggregation via SolarEdge, Enphase, Itron, etc
- Cybersecurity and remote access solution
- Hardware testing, configuration, assembly, and support
- Hardware warranty management
- Software configuration and customizations
- Third-party API integration
