

Quickly scale up your clean energy portfolio on one application

Increase financial and energy performance with PowerTrack to achieve the highest ROI

With the clean energy economy offering unprecedented business opportunities, AlsoEnergy empowers asset owners to capitalize on this growing market. Backed by a deep history of data with advanced analytics, PowerTrack, AlsoEnergy's flagship application for optimizing clean energy portfolios, enables smarter and more efficient O&M leading to **reduced operating expenses by up to 3-5% and minimizing downtime for up to 1-5% total energy production gain.**

PowerTrack

The all-in-one application for optimizing your clean energy portfolio

PowerTrack empowers asset owners to:

Increase financial and energy portfolio performance

Save time and improve efficiencies with streamlined, integrated workflows

Manage all users and assets on one application

Standardize all assets, including, utility, C&I, and aggregated residential on one application

Obtain reliable and live data easily to guide business decisions

Seamlessly onboard utility, C&I and residential assets to your portfolio with hardware-agnostic data ingest

Achieve improved uptime with a dedicated, 24/7 support team

PowerTrack

Essential insights into your clean energy portfolio health:

- Portfolio-level financial reports, charts, and invoicing
- Portfolio aggregation
- Power Purchase Agreement management
- High-level site management performance
- Site comparisons
- Customizable dashboards and energy reporting
- Easy integration of 3rd party CMMS and BI applications for stakeholder oversight
- Centralized document management

Making clean energy more resilient, manageable, and scalable

AlsoEnergy is unlocking the energy market by simplifying the management of clean power using monitoring and controls with advanced analytics. Our edge-to-cloud platform empowers you to participate in the evolving energy market, maximize the value of clean energy and storage assets, and scale portfolios.

From its founding, AlsoEnergy has led the market in clean energy portfolio optimization, driven by a passionate and innovative team with deep industry expertise.

As one of the first companies to introduce portfolio aggregation, AlsoEnergy set and maintains the industry standard for monitoring and managing clean energy assets. Now in its fifteenth year, AlsoEnergy continues to innovate and empower customers to capitalize on the growing clean energy market. Our global engineering and technical team supports renewable energy assets for companies on five continents, and is comprised of offices in the United States, Germany, India, and Japan.

Industry leaders rely on AlsoEnergy

stem

In February 2022, AlsoEnergy was acquired by Stem, Inc. (NYSE: STEM) the leader in AI-driven clean energy solutions and services. With the increased coupling of solar and batteries creating new optimization opportunities, the combined company is positioned to lead the transition to a smart energy network, providing energy stakeholders with a unified and leading clean energy intelligence platform for solar and energy storage assets.
